OAK POINTE

STANDARD CONSTRUCTION

Add panels to the top block

Solid internal blocking to allow for easy attachment of handrail

Our panels are made from the same board as the rest of the side so you have a continuous grain pattern

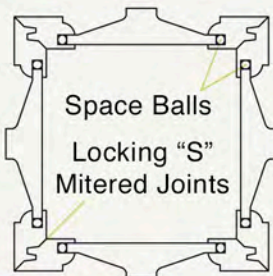

Choose round or square (Shaker) sticking or step sticking

True stile and rail construction – panels are NOT routed

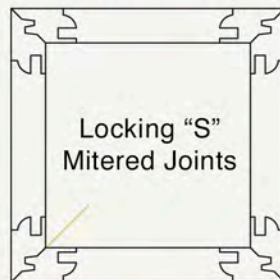

All solid hardwoods NO veneers

Loose internal mounting block (order your favorite hardware separately)

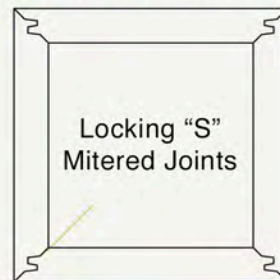

True floating panels
Note: Space balls allow for normal expansion and contraction

True stile and rail construction

Cross Section of Plain or Milled Box Newel
