## About Oak Pointe

Established in 1996 and headquartered in Newcomerstown, Ohio, Oak Pointe, LLC works diligently every day to provide the greatest value to our customers.

Under new ownership in 2007 Oak Pointe made a bold decision to continue domestic production of its products. The company seized the opportunity to differentiate itself by introducing creative new stair components along with island columns, finials, large columns, and products for exterior use in almost any wood species.

## Proudly Made in the USA

Though some specialty wood species are not grown domestically, all our wood products are proudly manufactured in the USA at our plant. Here at Oak Pointe, we hold ourselves to the highest standard to ensure that with every purchase, you receive exceptional American craftsmanship. From our customer service team to our design experts and production staff, we strive to provide our customers with the best possible products and experience from start to finish.
